About FBref.com

FBref.com launched (June 13, 2018) with domestic league coverage for England, France, Germany, Italy, Spain, and United States. Since then we have been steadily expanding our coverage to include domestic leagues from over 40 countries as well as domestic cup, super cup and youth leagues from top European countries. We have also added coverage for major international cups such as the UEFA Champions League and Copa Libertadores.

FBref includes what we believe is one of the most complete sources for women's soccer data on the internet. This includes the entire history of the FIFA Women's World Cup as well as recent domestic league seasons from nine countries.

In collaboration with StatsBomb, we are including advanced analytical data such as xG and xA for select competitions. For more information on the expected goals model and which competitions are covered, see our xG explainer.
